OTHER COMMENTS\*\*\*\*\*

SURVEY RECEIVED 5/25/93 (NO METER) #2-E  
E166 and E92 both apply to Western's 1000 ac-ft of Echo Storage. E92 requires the release of Pineview Storage, and is prior to E166. However, E166 enables natural flow to be diverted by exchange by using the Echo Storage to make downstream direct flow users whole. E166 enables Western to not depend solely on Pineview Reservoir storage to exchange their Echo Storage water.
